MEN'S SHED NDIS PROGRAM

Our Men's Shed NDIS program is for males of all ages who want to share in group activities & social interactions with other males. If you've got a NDIS plan we can:

- Assist you with access to the many activities available including wood work, metal work, computers & gardening.
- Provide tailor made projects & activities to suit your needs & strengthen your abilities.
- Lunch, morning tea and transport to & from the centre provided.

Our accredited & committed team support individuals, their families & carers to be aware of all options available using a person centred approach.
